

mykyn. bass clarinet subtone. bass clarinet
low undularis note or notes. with color
variation fingerings. lucid mykyn. // second
variation is groaning mynkn in which superb
mallet on bass down head joins bass clarinet
subtone variation fingerings. // third variation is
noisy groaning mynkn in which scratch on
any of lowest strings is added in. // fourth
variation adds auxilliary almglock, probably
just on a single pitch. // fifth variation is
white-tinged mynkn w/ sponges on bass down
head or on-the-body or on-the-bridge white
bowing in the strings or w/ air only through
oboe. // pf can participate by playing single very
low pitch w/ pedal down. pf can modify M
considerably by changing single low pitch to
extremely low R cluster w/ appropriate pedal
treatment. // stripped-down foreshadow variation includes
any of these sounds w/o bass clarinet subtone.
